FRATELLI TUTTI- BROTHERS AND SISTERS ALL

Education and upbringing, concern for others, a well integrated view of life and spiritual growth: all these are essential for quality human relationships and for enabling society itself to react against injustices, aberrations and abuse of economic, technological, political and media power. Some liberal approaches ignore this factor of human weakness; they envisage a world that follows a determined order and is capable by itself of ensuring a bright future and providing solutions for every problem.

Pope Francis
